INTRODUCING THE STARTER PACK

We understand that establishing the right film schedule for a new film society or community film group can be challenging, as well as a big financial commitment. That's why we've launched our Starter Pack - to help new organisations find their feet and discover whether a film screening is the right one for them and their audience.

Available to film societies and community film groups who have set up a Filmbankmedia account within the last 12 months, the Starter Pack provides an exciting introduction to our diverse range of content on offer and available for film screenings.

After creating an account at Filmbankmedia.com/setup, organisations have the opportunity to select 3 films from our film library for their first 3 screenings, at a special introductory price.

PRICING

The Starter Pack is available on a Commercial or Non-Commercial basis:

NON - COMMERCIAL SCREENINGS

- Select 3 films from our film library for non-commercial screenings.
- Invoicing will take place on the day of the screening of each title (£50+VAT per title).
